a surprising look at women who wielded power in medieval europe from queens to concubines to abbesses medieval society might expect the elite women who decorated its courts to play the role of queen guinevere but many of these women had very different ideas great queens who sometimes ruled in their own right fought wars and forged empires noblewomen acted behind the scenes to change the course of politics far from cloistered off from the world powerful abbesses played the role of kingmaker and concubines had a role to play as well both as political actors and as mothers of children who might change a country s destiny they experienced tremendous success and dramatic downfalls this book tells the stories of women from across medieval europe from a danish queen who waged political war to form a scandinavian empire to a tuscan countess who joined her troops on the battlefield whether they wielded power in battle from a convent or from a throne or even in the bedchamber these women were far from damsels in distress waiting for their knights in shining armor

a fortnightly bulletin on financial and political trends

the burgeoning scholarship on western health films stands in stark contrast to the vacuum in the historical conceptualization of eastern european films this book develops a nonlinear historical model that revises their unique role in the inception of national cinematography and establishing supranational health security readers witness the revelation of an unknown history concerning how the health films produced in eastern european countries not only adopted western patterns of propaganda but actively participated in its formation especially with regard to those considered others women and the populations of the periphery the authors elaborate on the long echo of the discursive practices introduced by health films within public health propaganda as well as the attempts to negate and deconstruct such practices by rebellious filmmakers a wide range of methods including the analysis of the sociological biographies of filmmakers the historical reconstruction of public campaigns against diseases and an investigation into the production of health films contextualizes these films along a multifaceted continuum stretching between the adaptation of global patterns and the cultivation of national authenticities the book is aimed at those who study the history of film the history of public health central and eastern european countries and global history the open access version of this book available at taylorfrancis com has been made available under a creative commons attribution cc by 4 0 international license

volume i a an outbreak of a respiratory disease first reported in wuhan china in december 2019 and the causative agent was discovered in january 2020 to be a novel betacoronavirus of the same subgenus as sars cov and named severe acute respiratory syndrome coronavirus 2 sars cov 2 coronavirus disease 2019 covid 19 has rapidly disseminated worldwide with clinical manifestations ranging from mild respiratory symptoms to severe pneumonia and a fatality rate estimated around 2 person to person transmission is occurring both in the community and healthcare settings the world health organization who has recently declared the covid 19 epidemic a public health emergency of international concern the ongoing outbreak presents many clinical and public health management challenges due to limited understanding of viral pathogenesis risk factors for infection natural history of disease including clinical presentation and outcomes prognostic factors for severe illness period of infectivity modes and extent of virus inter human transmission as well as effective preventive measures and public health response and containment interventions there are no antiviral treatment nor vaccine available but fast track research

and development efforts including clinical therapeutic trials are ongoing across the world managing this serious epidemic requires the appropriate deployment of limited human resources across all cadres of health care and public health staff including clinical laboratory managerial and epidemiological data analysis and risk assessment experts it presents challenges around public communication and messaging around risk with the potential for misinformation and disinformation therefore integrated operational research and intervention learning from experiences across different fields and settings should contribute towards better understanding and managing covid 19 this research topic aims to highlight interdisciplinary research approaches deployed during the covid 19 epidemic addressing knowledge gaps and generating evidence for its improved management and control it will incorporate critical theoretically informed and empirically grounded original research contributions using diverse approaches experimental observational and intervention studies conceptual framing expert opinions and reviews from across the world the research topic proposes a multi dimensional approach to improving the management of covid 19 with scientific contributions from all areas of virology immunology clinical microbiology epidemiology therapeutics communications as well as infection prevention and public health risk assessment and management studies

targeted at small and medium sized ngos provides practical information gathered from local practitioners in africa asia latin america and the caribbean and from international organisations and networks considers the very large group of child workers whose situation is potentially a worst form of child labour resembling slavery gives advice on how to reach these children and deal with rescue rehabilitation and reintegration how to assess their needs and how to deal with institution and capacity building

Eventually, **Kingdom Woman** will utterly discover a further experience and feat by spending more cash. yet when? get you endure that you require to acquire those every needs bearing in mind having significantly cash?
